

Manufacturer SGM
Luminaire i-2 UVA 365
Measurement Date 05-08-2021
Power Consumption 183.4 W
Radiant Flux 64.4 W
Field Angle (H) 19.0 deg
Beam Angle (H) 8.3 deg
Field Angle (V) 23.8 deg
Beam Angle (V) 11.6 deg

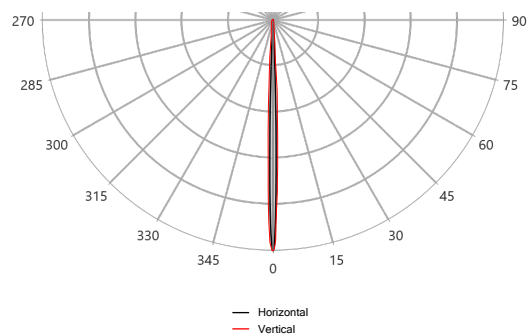

The data is measured in Radiometric units. The following applies for data in this file: Lumens-> W, lux-> W/m², candela-> W/sr

Test performed in near field cause of lamp dimensions. Spread angles might differ for longer distance, where far field approximation could be applied. For the far field measurement beam angles in H and V directions expected both to align to 8,5 deg.
